WasteWell

CURBSIDE COMPOSTING

WHAT DO WE DO?

WasteWell picks up your food scraps and delivers them to a local composting facility to be turned into a nutrient-rich soil amendment. Composting is pretty simple and so is our mission. We make it easy for you to compost... because food scraps in our landfill are pretty terrible for the environment. We provide a super simple option for those who want to compost but aren't ready or interested to take it on themselves.

HOW DOES IT WORK?

When you sign up, we give you a 5-gallon bucket. You fill it with food scraps, and we stop by to empty it bi-weekly. Read more about composting on our website.

30-DAY REFUND GUARANTEE

Not sure if composting is for you? We know some people are hesitant about starting this new habit.

We offer a 30-day refund guarantee. If you try it out and our curbside composting service isn't for you, we'll refund your payment, no questions asked.
